

About us

The European Adult Education (Young) Professionals Learning Platform (AE-PRO) project offers a capacity building e-training for (younger) staff in adult education about European developments and adult education in other countries.

We aim to increase the knowledge of staff about adult education in Europe and increase the exchange of innovation across Europe through intergenerational learning, and the learning of experts as well as peers. We also aim to provide opportunities for the professional development and training of staff in adult education through the coordinated use of Erasmus+ mobilities.
